Asmedia asm3142 datasheet pdf download pdf file

Last edited by BenjW, 06-09-2021 at 10:11 AM. - G.SKILL 32GB 14-14-14-34 [Trident Z RGB] F4-3200C14Q-32GTZR- Seasonic PRIME Titanium 850 w-SSD: Samsung SSD 850 PRO 2TB x3 -SSD: Samsung 950 PRO M.2 512GB OS-Sound Blaster Z -Intel Ethernet Server Adapter I210 CASE:Cooler Master: HAF X MONITOR:IPS LED LG 27" 27UD69P 27 inch 4K 5 ms TV: LG OLED55C8P OS: Windows 10 x64 Pro up to date (Generally it would be nice to get official block diagrams of mainboards to see how things are connected and thus how much bandwidth is allocated to them. The only way to know for sure is with a before/after test of all ports using a reasonably fast NVMe SSD for both internal/external file transfers with the proper I/O ports (Type A and C). AFAIK there are no ASM2142 chips on the R6EE motherboard ... Upper Left Hand Side (ULHS next to rear I/O ports or back side) One ASM3242 One ASM3142 One ASM1543 One ASM1074 Lower Right Hand Side (LRHS next to SATA ports or front side) One ASM3142 Two ASM1543 One ASM1074 (BTW, this is the most detailed review of the R6EE that I have found to date) Except for the three USB 2.0 ports (one rear and two front) there are 17 USB 3.2 ports (twelve of these are USB 3.2 Gen 1) according to the Asus product manual (i. IMHO the R6EE does not require this firmware update if the USB 3.2 ports are as claimed in the R6EE manual. The marketing department probably wouldn't like that since they couldn't write "board has an XYZ USB controller that 'supports' 20Gbps". Do you have a source that specifies what exactly the update changes? Back to top Brand name: ADT-LINK Product name: M.2 NVMe to USB 3.1 adapter Product model: WQ35 Transfer speed: PCIe gen2x2 ; USB gen2x1 Weight: 20g Dimension: M.2 NVMe 2280 card Application: M.2 key_M to USB type_A & type_E Part-Number Description Bandwidth WQ35 M.2 NVMe to USB A+E adapter PCIe gen2x2 ; USB gen2x1 (Max.) Specifications: System requirements: Windows 10 (built-in driver), win7/win8 need to download and install the driver, support Linux, do not support Mac OS, the motherboard must have an empty M.2 NVMe interface for this product to install win7/win8 driver download Product Specifications: Asmedia ASM3142 main control chip Support PCI Express3.0 x2 (16Gbps), can be used for M.2 Ultra SSD, NVMe slot Supports simultaneous operation of multiple USB 3.1, 3.0, USB 2.0 and USB 1.1 devices Support USB data transfer rate of 10G/5G/480M/12M/1.5M bps Supports one type-A port Supports one type-E port (also known as Type-C front port) Support USB3.1 Gen2 x1 USB3.1 interface transfer speed up to 10Gbps Supports ordinary charging, but does not support fast charging protocol Compliant with xHCI (Extensible Host Controller Interface) specification revision 1.1 5V/900mA power output for USB port Operating Temperature: 0 to 60°C (32 to 140°F) Storage Temperature: -20 to 70°C (-4 to 158°F) Working humidity: 5% to 95% RH Dimensions and weight: 22x80mm, 60g Photo: Download: To open 3D PDF files. On my R6EE (Encore), the FW update tool detected two out of three Asmedia controllers, for which the update apparently worked fine. If the review is correct, then what is still funny is the allocation of just one PCIe link to each of those ASM3142s (while HWINFO reports a x2 connection), which would limit the bandwidth to merely 8Gbps per controller - so no point at all in supporting USB 3.2 Gen 2x2 with 20 Gbps as they cannot even do USB 3.1 Gen 2 (x1) with full 10Gbps. (Maybe this is different on other boards such as R6E or R6EO...) Edit: So maybe this update only brings the "USB 3.2 Speed" improvement specifically to the 3142 controller (effectively advancing it to a 3242)? USB 3.1 is never mentioned). Reason: Correction 06-12-2021 07:11 AM #16 Originally Posted by BenjW Thanks for sharing. Interesting, also thanks for sharing the review link. On the other hand, the ASM3242 which definitely supports one USB 3.2 Gen2x2 connection with 20Gbps gets 4 PCIe lanes (32 Gbps). 06-09-2021 06:32 PM #13 Originally Posted by BenjW Thanks for sharing. e. In Russian (but using Google Translate and their inlined images) I get ... According to HWINFO, the R6EE comes with 2x AsMedia ASM2142 USB 3.1 xHCI Controller (each on a PCIe 3.0 x2 Link)
